

How much collaboration do you see among parks & GSI in the field as a whole?

How much has your own agency collaborated with your parks / GSI counterparts?

# How Comfortable Are You...

	Beginner	Familiar	Advanced	Expert
<b>Messaging</b> the co-benefits of PGSI				
Creating <b>policies</b> to integrate PGSI				
<b>Data/research</b> on co-benefits of PGSI				
<b>Developing</b> PGSI projects				
<b>Educating</b> elected/agency leaders on importance of PGSI				
<b>Getting funding</b> for PGSI projects				
<b>Engaging community</b> around PGSI issues				
<b>Partnering</b> with other agencies				
<b>Presenting your PGSI work</b> to other professionals				

# What do you hope to gain from participating in this cohort?

Advocacy opportunities

Events & conferences

Funding opportunities

Model policies

Peer learning & networking

Relevant case studies

Research & news related to PGSI

Speaking opportunities

# What do you hope to contribute to this cohort?

- Experience developing a park within a property originally intended for just stormwater detention
- Case studies of successes and challenges we have had integrating GI into parks
- Share our challenges with seeing GSI as a co-benefit rather than a "taking" of park space
- Share our model and internal department collaborations for integrating GSI into park projects
- Knowledge, experience, and new ideas
- Our Community Based GI Program funding models and how we made a holistic GI program (e.g., compensating community for input, equitable projects, multi-benefit)
- Share some barriers my agency has run into in trying to partner with our Parks department
- Share experiences and challenges from our journey
- Examples of how our District demonstrates commitment to aligning our designs with community and natural values
- Examples of our collaborative efforts to create recreational opportunities
- Share questions and information about current work
- Share resources on GSI
